ZLATKO SKORIC

FRONT-END WEB DEVELOPER

As a junior Front-end web developer, I am passionate about crafting efficient, intuitive, and dynamic user interfaces for interactive web applications. I continuously strive to expand my knowledge, staying updated with the latest industry trends. I am a friendly and enthusiastic developer, eager to contribute to impactful projects and further enhance my skills in the exciting world of ReactJS development.

EDUCATION

FACULTY OF BUSINESS STUDIES
Bachelor Degree/ Executive Management •April 2005

BELGRADE BUSINESS school
degree/ marketing • March 2003

WORK

Entrepreneur from December 2010 – Present

I have held various positions in marketing, design, sales, administration (Zen Cart and Magento), IT product management (Trello and similar) and gym trainer (5 years). I assisted a marketing agency in developing strategies for promoting and selling new and existing products, gaining experience in marketing, adobe photoshop, pharmaceutical products, supplements etc. I lived in Thailand for approximately five years and gained valuable experience in a multicultural environment.

BEO KERAMIKA from March 2006 – December 2010

Accountant & HR: during my employment, my responsibilities encompassed administration, the implementation and alignment of labor laws, salary calculations, accounting tasks, and collaboration with banks and financial institutions. This experience allowed me to develop proficiency in navigating complex regulatory frameworks, ensuring accurate payroll processing, maintaining financial records, and fostering effective partnerships with financial entities.

EXTRACURRICULAR ACTIVITY

Udemy Certificate of Completion: React - complete guide 2023 (incl. React Router & Redux) by Maximilian Schwarzmuller
